POLICY REGARDING MATERIAL ON DESKS

MR. SPEAKER:

There is no written rule in the House covering distribution of material on the members desks. We have operated the last few years under the unwritten rule that nothing can be distributed unless it is signed by a member or a Senator.

The Senate has a rule that prohibits the distribution of material in the Senate Chamber unless it is signed by a Senator.

BRYANT MILLSAPS.

CALENDAR

Mr. Rhinehart moved that House Bill No. 364 be placed on the Calendar for Monday, April 4, 1983, which motion prevailed.

House Bill No. 971--To make provisions, corporate excise tax.

Mr Rhinehart moved that House Bill No. 971 be passed on third and final consideration.

Mr. Murray moved to amend as follows:

AMENDMENT NO. 1

Amend House Bill No. 971 by inserting the following language as a new subsection at the end of the amendatory language of Section 3:

"() Nothing contained within the provisions of this section shall be construed to authorize cities and counties to receive from the state under subsection (a) an amount greater than the sum collected by the state pursuant to Tennessee Code Annotated, Title 67, Chapter 27."

On motion, the amendment was adopted.

Mr. Murray moved to amend as follows:

AMENDMENT NO. 2

Amend House Bill No. 971 by substituting for the amendatory language of SECTION 2 thereof, the following:

(B) Interest income from obligations defined in 26 U.S.C. Section 103 (a) (1) less allowable amortization.

and further amend by substituting for the amendatory language of SECTION 3 thereof, the following:

67-2733. All the taxes collected under this chapter shall be applied as follows:

(a) To cities and counties, an amount to be determined, allocated and administered in the following manner for each bank doing business in this state:

(1) Three percent (3%) of the net earnings of the bank for the fiscal year second preceding the year in which the distribution under this section is made less ten percent (10%) of the ad valorem taxes paid by the bank on its real property and tangible personal property for the fiscal year second preceding the year in which said distribution is made. For the purposes of this subsection, the term net earnings shall not include amounts attributable to interest earned on bonds and other obligations of the State of Tennessee. The total amount thus determined shall be allocated between the county and municipal governments where the principal office of the bank is located in the same proportion as the property tax rate of each such taxing jurisdiction shall bear to the sum of said property tax rates.

(2) In no event shall the amount of this tax to be allocated to cities and counties in any year be less than an amount calculated on the basis of sixty percent (60%) of the book value of each bank as of December 31, 1976 except that the sixty percent (60%) book value of any bank, which has been in business for five years or less shall be determined as of the first year such bank is in business and the sixty percent (60%) book value of the fifth year shall be used for the sixth year and all years thereafter. The book value of any bank shall be the sum of the paid in capital, surplus and undivided profits, to include any capital reserves.

In these calculations for the minimum allocation, the following shall be deducted from the sixty percent (60%) book value:

(A) The appraised value of all real property and tangible personal property owned directly or indirectly by the bank and assessed to it for the fiscal year second preceding the year in which the distribution under this section is made.

(B) The appraised value of all real property in Tennessee occupied by the bank and used for the purpose

of conducting its business and upon which is paid the ad valorem taxes for the fiscal year second preceding the year in which the distribution under this section is made under terms of a lease requiring that such taxes be paid by the bank and said lease has been registered in the county where such property is located.

A ratio of forty percent (40%) shall be applied to the remaining book value and to this resulting amount the tax rates for the year second preceding the year in which the distribution under this section is made of the county and municipality where the principal office of the bank is located shall be applied to determine the minimum amount to be allocated to each such respective taxing jurisdictions.

(3) In circumstances where a bank has branches or offices in a county or counties other than the county where its principal office is maintained, the total allocation attributable to such bank as determined above shall be further allocated between such counties and cities where its principal office and branches or offices are located as follows:

(A) The proportionate percentage that is produced by the ratio of the deposits of each branch or office of the bank to the total deposits of the bank shall be determined as of January 1 of each year and the percentage so determined shall then be applied to the total allocation to determine the portion of the total attributable to each branch or office;

(B) The branches or offices shall then be grouped each to a common location so as to determine the aggregate allocation of all branches or offices located in each individual county and municipality; and

(C) The percentage of the total allocation allowable to each county and municipality shall be divided between the county and municipality where the branch or office is maintained in the same proportion as the property tax rates of each for the year second preceding the year in which the distribution under this section is made shall bear to the total of the said property tax rates.

(4) The director of the division of property assessments shall provide to the commissioner of revenue, on an annual basis, the calculations necessary to make the proper allocations to counties and municipalities as determined pursuant to this subsection. The commissioner of revenue shall provide to the director of property assessments,

periodically on a timely basis, the net earnings figure of each bank doing business in this state as determined pursuant to this subsection. Internal procedures as deemed necessary to effect these purposes may be jointly developed by the commissioner of revenue and the director of the division of property assessments.

(5) The allocation attributable to any bank which has been in business less than five (5) years shall be reduced proportionately at the rate of one-fifth (1/5) for each year less than five (5) it has been in business.

(6) In the event the net earnings of any bank shall be redetermined for any period in accordance with this chapter, the commissioner of revenue shall advise the director of the division of property assessments of the corrected net earnings, the division of property assessments shall then recalculate the allocation attributable to such bank and any indicated increase or decrease in allocation shall be effected in the next succeeding general allocation to the respective county and municipal governments, as appropriate.

(7) The director of the division of property assessments shall have authority and power to prescribe forms upon which all banks shall report such facts and information as will enable said division to ascertain the correctness of the allocation. The division of property assessments shall furnish such forms to each bank on or before April 1 of each year, or as soon thereafter as possible, and banks shall return completed forms to said division on or before May 15 of each year. The division of property assessments shall have full power to summon witnesses, to inspect or require the production of books and papers, and to obtain and consider any evidence and records other than the reports submitted by such banks which it may deem proper or necessary to carry out its responsibilities under this subsection. In the event any bank subject to the provisions of this act fails, refuses or neglects to complete and file such form with the division of property assessments as herein provided, said division shall determine the amount of the allocation in regard to such bank on the basis of the best information available.

(b) After allocations to counties and municipalities as provided above, the remainder of the taxes collected under this chapter shall be applied to and become a part of the general fund of the state.

and further amend by substituting for SECTION 4 thereof, the following:

SECTION 4. The legislature is hereby exercising its discretion granted in article 2, section 28 of the Constitution

THURSDAY, MARCH 31, 1983--22nd LEGISLATIVE DAY

of Tennessee to establish the manner in which banks shall be taxed. The allocation of taxes to local governments herein provided shall be in lieu of the taxation of the subclassification of intangible personal property designated as "shares of banks and banking associations, and all taxes on the redeemable or cash value of all their outstanding shares of capital stock, certificates of deposit and certificates of investments, by whatever name called, of such bank or banking association provided that such bank or banking association shall nonetheless continue to be subject to ad valorem taxes on its real property and all other taxes to which it is currently subject.

and further amend by substituting for SECTION 5 thereof, the following:

SECTION 5. This act shall take effect upon becoming law, the public welfare requiring it. The provisions of Section 2 of this act shall be applicable only for fiscal years of such corporations subject to this tax ending on or after the effective date of this act. The first allocations under section 3 of this act shall be made to local governments in the third quarter of each state fiscal year commencing with the state fiscal year beginning July 1, 1983.

On motion, the amendment was adopted.
